SUMMARY

The incumbent shall work under the direction of the Manager and/or his or her designee within the City of Fort Wayne Utilities Development Services Department (DVS). The incumbent shall also work closely with other staff of DVS as needed.

The incumbent shall be involved with multiple aspects of the mission of DVS including plan review, the Municipally Separate Storm Sewer System (MS4) program, the Storm Water Basin Inventory and Water Quality Program, the Septic Elimination and Water Direct Connect Programs, Food Service Establishments, electronic document conversion, and general office administration.

The incumbent is expected to exercise good judgement, initiative, and professional expertise in conducting day-to-day operations. All work duties and activities must be performed in accordance with City and department policies and procedures as well as federal, state, and local regulations.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the ability to interact with the public, City incumbents, and outside agencies with patience, tact, respect, and professionalism and the following. Other duties may be assigned. Computers or other technological tools will be used by the employee to assist in the performance of their duties.

PLAN REVIEW - ALL ROUTING TYPES

- Assists Engineering Representative III's with plan review for all routing types (sanitary, storm water, potable water, and Food Service Establishment Permits) for compliance with local, state and federal regulations and standards as applicable;
- Serves as primary back-up to Engineering Representative III's during their absence;
- Assists Engineering Representative III's with various administrative tasks relating to the setup of files for private developer projects including, but not limited to inserting project technical data and financial data into both Developer Contracts and Reimbursement Contracts, requests for work order numbers, preparation of plan review comments, and preparation of approval letters;
- Locates plans, record drawings, maps, easements, agreements, ordinances, rules and regulations about existing City Utility Systems and explains and identifies responsibilities associated with the requested document as needed;
- Assists with preparation of DVS comments in response to applications submitted to the New Projects Meeting held by Department of Planning Services;
- Performs records research using various database systems, filing systems, and mapping systems when requested;
- Assists Engineering Representative III's with complaint investigation related to Developer Projects including site visits, correspondence and follow-up;
- Reviews and processes petitions for vacations of alleys, public rights-of-way, easements and recorded plats;
- Reviews and processes petitions for encroachment agreements.

MS4 PROGRAM

- Ensures accurate and timely tracking of data for which DVS is involved;
- Provides information to developers, consultants, and construction contractors regarding compliance responsibilities;
- Works with other staff in the development and modification of utility standards, specifications, policies, procedures, rules, and regulations for storm water utilities;
- Performs site visits/field checks as required;
- Assists with overall City reporting responsibilities as needed by others.

SEPTIC ELIMINATION AND WATER DIRECT CONNECT PROGRAM

- Assists with identifying potential new customers;
- Assists with preparation of mailing information to property owners to determine initial interest and project updates;
- Assists with coordination and planning for information meetings with property owners, attends, and assists with the conducting of these meetings.

STORM WATER BASIN AND WATER QUALITY INVENTORY

- Assist with collection of field data;
- Enter field data into Accela or other management approved tracking system.

ELECTRONIC DOCUMENT CONVERSION & RECORDS RETENTION

- Works with appropriate DVS staff on project paper file document retention in conformance with establish laws and policies;
- Works with appropriate DVS staff on purging paper routing project files and contract project files including but not limited to preparing, organizing, updating, and inventory of project files for off-site file storage;
- Works with appropriate DVS staff for reorganizing paper-based and electronic-based project filing systems;
- Lead staff person for scanning of historical hard copy documents into electronic format, uploading project documents, data entry and indexing into Accela and Application Xtender systems.

GENERAL OFFICE ADMINISTRATION

- Assists with providing support assistance to departmental personnel as approved by DVS Management which may include typing, copying, scanning, data entry, filing and inventory in support of various programs;
- Provides backup and technical support for daily administrative/office operations;
- Assists with presentations at Board of Public Works, Common Council and other public meetings as required;
- Attends staff meetings, meetings related to Developer Projects, Septic Elimination Projects, Water Direct Connect Projects, and initiatives started by City Utilities.

MISCELLANEOUS

- Ability to shift focus between multiple projects or tasks as priorities are identified, or while waiting for actions from others;
- Aptitude and willingness to be trained how to operate various specialized computer software programs including but not limited to Accela, PMIS, MS Office Products;
- Contributes to a team atmosphere within DVS through strong interpersonal skills as demonstrated by an ability to respond appropriately to others, actively listen, and provide feedback in a non-threatening manner;
- Maintains a valid Indiana Driver's License;
- Maintains good public relations.

PERFORMANCE EXPECTATIONS

The incumbent is responsible to manage their performance in accordance with this job description and the performance expectations provided to them by management. If at any time the incumbent is unsure of their role or specific responsibilities, it is the incumbent's responsibility to refer to their job description and ask for clarification from their supervisor. Management will work with the incumbent, as needed, to ensure performance expectations are clearly communicated and performance goals are achieved.
