CURB, CONCRETE - TYPE III MODIFIED

Description
Contractor shall provide all labor, materials, equipment, and incidentals as shown, specified, and required to furnish and install Portland Cement Concrete (PCCP) curbs for the project in accordance with FWR Section 605.

Materials
Materials shall be Concrete, Class A in accordance with INDOT Standard Specifications latest edition, Section 502 for PCCP and 702 for Concrete, Class A.

Construction Requirements
The Work shall consist of the construction of PCCP curbs in conformance with the lines and grades shown on the Drawings or established by the Engineer/Project Manager. Curb shall be constructed as shown in the Project Drawings on Sheet 5.

Method of Measurement
Concrete curb will be measured by the linear foot along the front face of the section at the finished grade elevation of the type specified.

Basis of Payment
The accepted quantities of concrete curb will be paid for at the contract unit price per linear foot, complete in place.

Payment will be made under:
