DIVISION 600 – INCIDENTAL CONSTRUCTION

SECTION 623
CURB, CONCRETE TYPE III, WITH ASPHALT/CONCRETE PATCHING

Shall be in accordance with 605, with the following exceptions

623.01 Placement

This item shall consist of a uniform 2 inch depth of 9.5mm Type B asphalt surface over 8 inches of Portland cement base, over properly prepared sub-base, to match existing lines and grades of existing adjacent pavements.

623.10 Basis of Payment

The accepted quantities of curb work will be paid for by the linear foot of curb placed, which includes asphalt/concrete patching, sawing, excavation, labor, materials, and all incidental required to complete said work, unless otherwise stipulated.

Payment will be made under:
