

Celebrate World Wetlands Day

February 2, 2019

Two Hundred years ago,
25% of Indiana was wetland.

There are about **33 trillion** gallons of water in
the U.S. the majority of them in the wetlands.

Today, only **4%** of Indiana is still wetland.

Wetlands are “home” to more than
200 species of birds.

**Visit protected wetlands in Allen County on February 2
to see what they do for you!**

10 am – 'Share the Trails' Hike at the Tom and Jane Dustin Preserve

1802 Chapman Road, Huntertown, IN 46748. Presented by ACRES Land Trust.

For more information, contact Lettie Haver at LHaver@AcresLandTrust.org
