

CITY OF FORT WAYNE CITY UTILITIES

7722 Moeller Road - Lifeway Wesleyan Church

Septic Elimination Project Overview

City Utilities is working to eliminate failing septic systems in the city, by making connections to the public sanitary sewer system available for these properties.

The Problem

Septic systems have a limited life and eventually fail. In addition, the soil types in Allen County are poor for septic waste absorption. As a result, human waste leaches into groundwater, backyards and neighborhood ditches and streams. Failing septic systems are linked to unsafe levels of *E. coli* in many neighborhood streams and ditches.

The Solution

To address health hazards in our neighborhoods, the Septic Elimination Program (SEP) was implemented to convert many neighborhoods on septic systems to public sanitary sewer service. Neighborhoods with higher septic system failure rates are the priority of our program.

This project will bring sewers to 3 homes by October 2013. This will address approximately 1% of the 500 homes still on septic systems in Fort Wayne.

Three (3) properties are part of the Moeller Road project. This project will include by tapping an existing Manhole (W11 012) located 35± feet South and 20± feet West of the Centerline of the Intersection of Moeller Road and Fritch Avenue; thence East and crossing Fritch Avenue, 50± L.F. of 8" PVC SDR 35 pipe to MH 1; thence East, within a proposed 14 foot sanitary sewer easement, 170± L.F. to MH 2; thence Easterly 145± L.F. to MH 3; thence East 380± L.F. to MH 4 and terminating said Sanitary Sewer Main.

Project Status

Project Status: In Construction

Construction Period: May – June

Estimated Project Costs: \$55,773

Approximate # of Properties in the Project: 3

Cost per Property: \$14,693.25

Project Benefits:

- Improved quality of life; worry free use of home facilities
- Reduced maintenance worries
- Improved environmental and health conditions for homes and neighborhoods
- Greater protection for well water, streams and drainage ditches
- Homes possibly become more marketable

SEP Information: 260-427-5064
