

CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

**Fort Wayne City Utilities
200 E. Berry Street, Suite 250
Fort Wayne, Indiana 46802**

March 4, 2019

Dear Edgewood-North Clinton Area Resident or Business Person:

Fort Wayne City Utilities is working on design of a project that will replace the existing water main on portions of Edgewood Avenue, North Clinton Street, and Lima Road in your area. As you know, water mains in this area have experienced a high number of breaks creating inconveniences for you and frustrations for motorists on these heavily traveled streets. To increase the reliability of the water supply and reduce the likelihood of main breaks, City Utilities will be replacing the water main on portions of Edgewood Avenue, North Clinton Street and Lima Road.

We would like to meet with you to share our ideas and designs, and gather more information about any concerns you may have.

We hope you will be able to join us:

Wednesday, March 13, 2019 at 6:00 PM
Salvation Army – Basement Meeting Room
2901 N. Clinton Street
Fort Wayne, Indiana

The meeting will include a short presentation followed by the opportunity for you to look at our plans and discuss them with members of the City Utilities design team.

If you have questions between now and the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact project manager Austyn Smedberg at 260-427-2708 or by email at austyn.smedberg@cityoffortwayne.org

The Salvation Army center is accessible for persons with disabilities. However if you need accommodations such as a language or sign language interpreter, please contact Austyn at least 48-hours prior to the meeting.

Sincerely,

Andrew Schipper, P.E.
Manager of Water Engineering
