

CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

**Fort Wayne City Utilities
200 E. Berry Street, Suite 250
Fort Wayne, Indiana 46802**

January 14, 2019

Dear Fairfield Ditch Area Property Owner or Resident:

Fort Wayne City Utilities is designing an improvement project for a section of the Fairfield Ditch to address streambank erosion and protect the embankment from future deterioration. We would like to meet with you to gather more information and to present the preliminary design for the project. As part of the project, City Utilities plans to use several different erosion control products to determine which might be best for future phases of ditch restoration.

We hope you will be able to join us:

Monday, January 28, 2019 at 6:00 PM
Bethany Lutheran Church
2435 Engle Road
Fort Wayne, Indiana

The meeting will include a short introduction/project overview by Kristen Buell, P.E., the City Utilities' designer who is working on the project. Following that, there will be time for you to ask questions and share information with City Utilities. This is the initial design meeting for the project. Once we have a contractor selected we will have an additional meeting that will give you an opportunity to meet the contractor.

If you have questions between now and the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact Kristen Buell at (260) 427-2583 or by email at kristen.buell@cityoffortwayne.org

The Church is accessible for persons with disabilities. If you need accommodations such as a language or sign language interpreter, please contact Kristen at least 48-hours prior to the meeting.

Sincerely,

Anne Marie Smrchek, P.E.
Manager of Sewer and Stormwater Engineering
