

CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

Fort Wayne City Utilities - Engineering
200 E. Berry Street, Suite 250
Fort Wayne, Indiana 46802

May 31, 2018

Dear Hessen Cassel area property owner or resident:

Fort Wayne City Utilities is working on design for a project that will reduce street flooding, improve drainage and provide sidewalks along Hessen Cassel Road from Stardale Drive south to the City limits (Brentley Drive). As part of the design of this drainage improvement project, City Utilities' engineering team for this project would like to meet with you to learn more about the issues you experience and to discuss some ideas for how improvements can be made. We have scheduled two meeting times so that you may attend the meeting that is most convenient for you. The same information will be discussed at each meeting, so it is not necessary for you to attend both.

We hope you will be able to join us:

Monday, June 18 at 6:00 PM OR Thursday, June 21 at 6:00 PM
Hessen Cassel Branch Library
3030 E. Paulding Road
Fort Wayne, Indiana

The meetings will include a short presentation followed by the opportunity for you to look at maps of the area and drawings, and discuss them with members of the City Utilities engineering staff. This project represents the second phase of at least two phases of needed improvements and was identified through a recent study of the Hessen Cassel Road corridor. This is also a project that was prioritized for funding that comes from a recent increase in Fort Wayne's stormwater utility fee.

We hope you will join us to learn more about the planning for this important project. If you have questions between now and the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact project manager Charlie Cochran at 260-427-1062 or by email at charlie.cochran@cityoffortwayne.org

The meeting location is accessible for persons with disabilities. However, if you need accommodation such as a language or sign language translator, please contact Charlie at least 48-hours prior to the meeting.

Sincerely,

A handwritten signature in cursive script that reads "Anne Marie Smrchek".

Anne Marie Smrchek, P.E.
Manager of Sewer and Stormwater Engineering
