

CITY OF FORT WAYNE

THOMAS C. HENRY, MAYOR

Fort Wayne City Utilities - Engineering
200 E. Berry Street, Suite 250
Fort Wayne, Indiana 46802

November 12, 2018

Dear Hessen Cassel area property owner or resident:

Fort Wayne City Utilities is finalizing the design of a project that will reduce street flooding, improve drainage and provide sidewalks along Hessen Cassel Road from Stardale Drive south to the City limits (Brentley Drive). Public meetings were held in June 2018 and we appreciate the input we received at that time. Now the City Utilities' engineering team would like to give you an update on the plans for the project.

We hope you will be able to join us:

Monday, November 26, 2018 at 6:00 PM
McMillen Community Center – Red Room
3901 Abbott Street
Fort Wayne, Indiana

The meeting will include a short presentation describing the project followed by the opportunity for you to look at maps of design drawings and discuss them with members of the City Utilities engineering staff.

If you have questions between now and the meeting, or if you cannot attend the meeting but would like to discuss the project, please feel free to contact project manager Charlie Cochran at 260-427-1062 or by email at charlie.cochran@cityoffortwayne.org

The meeting location is accessible for persons with disabilities. However, if you need accommodation such as a language or sign language translator, please contact Charlie at least 48-hours prior to the meeting.

Sincerely,

Anne Marie Smrchek, P.E.
Manager of Sewer and Stormwater Engineering
