THOMAS C. HENRY, MAYOR

July 9, 2018

Dear Karen Avenue or Kingsley Drive Property Owner or Resident:

I am pleased to inform you that Fort Wayne City Utilities has awarded a contract for construction of stormwater drainage improvements in the Woodstock Place addition that will help to alleviate concerns about drainage that have been reported to City Utilities. The project involves the installation of new storm sewer pipe and storm drain inlets along with the replacement of some areas of concrete street.

Lawnscape Land Management, Inc. has been awarded the contract for construction of the project. Work is expected to begin in August 2018 and be completed in early 2019.

I know that utility construction projects can be disruptive for neighborhoods while they are going on. It is the goal of our staff to keep you well-informed about what is expected to happen during the project. I want you to know who to contact to answer your questions and resolve any construction issues. Please join City Utilities for an opportunity to "Meet the Contractor" and learn more about this important project and how it will impact you:
