DEPARTMENT OF ANIMAL CARE & CONTROL

The Department of Animal Care and Control faces the public health and safety issues involving animals using a proactive approach. Protection of citizens and animals, animal rescue, and efforts to minimize euthanasia of unwanted animals through spay/neuter promotion all strongly reflect the neighborhood and community driven origins of this agency. Local and state legislation is used to address pet overpopulation, responsible pet ownership issues, and cruelty or violence issues involving animals. The success of the approach would not be possible without positive community outreach and education.

The ordinance, adopted by City Council in 1982 and amended as recently as 2007, delineates the laws to be enforced and the responsibilities of the department toward achieving an overall professional and quality program. This department has been recognized nationally as a leader in the field and employs multiple national instructors in specific areas of the profession.

The department will continue to provide high levels of service in all areas of animal care and control and continue enforcement aimed at the protection and assistance of both community residents and animals. We will strive to increase promotion of responsible animal ownership to combat pet overpopulation and it's resulting euthanasia of animals and negative impact to our neighborhoods caused by animal excesses.

Programming and Initiatives

We launched into 2008-2009, working with our local judges to institute the newly passed Dangerous Animal Ordinances drafted and presented by a community input group in early 2008. The institution of the new laws began slowly to ensure consistency, but all parties are now on board with the new processes and we'll be reviewing results for safety impacts.

This budget reflects a maintenance approach to our current programming with plans to work toward expansion of donor dollar use in our medical, care, and educational areas. We continue to advance our public safety responsibilities regarding dogs with the application of the new legislation. As we moved into 2009, our staff conducted the second annual "Neuter for a Nickel" in an effort to bring attention to the need for spay/neuter in the community to minimize euthanasia. With an intake of over 9,000 cats and fewer than 4% reclaimed by owners, the cat became the focus for this event.

Fort Wayne Animal Care and Control has long been a national leader in the area of government based animal services. The department was recently showcased nationally for it's progressive attitude, customer service, programming, and volunteerism. However, the City of Fort Wayne as a community is beginning to stand out as one of those failing in it's efforts toward the fight against pet overpopulation and in the prevention of euthanasia of healthy and treatable animals. Most communities our size have more non-profit activity in their geographic regions. The tax based funding and volunteering at a government shelter cannot meet all the programming needs for this community. We continue to make the effort to work toward collaborative involvements with interested groups who may share some of those same conclusions to see what opportunities may lie ahead for our city.

Goals and Objectives

The Department of Animal Care and Control carries out public safety and service tasks. Animal Care & Control staff protect citizens from threatening animals, enforce animal related laws, protect the city's animal population and educate the public regarding safety, the surplus animal problem and the humane care and treatment of animals.

- 1. To encourage responsible pet ownership and to reduce the number of unwanted domestic animals in Fort Wayne, subsequently reducing the number of animals currently being euthanized.
- To increase the level of responsible pet ownership thus reducing animal related problems at the neighborhood level and indiscriminate breeding of animals in the city.
- 3. To increase education levels of both children and adults relative to safety, humane care and treatment of animals, responsible pet ownership and the plight of unwanted animals.
- 4. To continue promotion of the Spay Neuter Assistance Program (SNAP) for families unable to afford the spay or neuter surgery for their pet.
- 5. To increase contacts with owners regarding proper licensing of their pets for safe return.
- 6. To protect both citizens and animals using modern ordinances and state laws to reach compliance when necessary.

Services Provided

Enforcement of state and local laws relative to animals. Full investigation for both human and animal protection.

Administration of the State Health Codes, investigations, and prosecutions relative to animal bites, quarantines and specimen shipments for rabies examination.

Promotion and administration of all license and permit programs relative to animals. Monitor special events in the community involving animals.

Protection of citizens from health and safety threats involving animals regardless of species.

Administer Humane Education programs through advanced technology applications and in person in the

Fort Wayne Community School System, for local scout troops, and adult groups regarding Animal Control and responsible care of animals.

Provide a pet adoption source for community residents.

Shelter animals of all species in need of safe haven until reclaim or abandonment by owners. Provide care, sanitation, medical attention, exercise and daily maintenance for all animals admitted to the Animal Care and Control Shelter.

Emergency pick up of sick and injured animals, wild and domestic.

Live trap rental program for nuisance cat problems.

Emergency impound of animals involved with owner tragedy.

Pick up of stray animals, both confined and unconfined with enforcement of animal at large laws.

Respond to neighbor complaints regarding nuisance violations.

Euthanasia of unwanted, unclaimed and surplus animals. Euthanasia of animals by owners request due to illness, injury and age.

1 & 2 Vehicle Replacements: The vehicles will be replaced according to Fleet Management replacements guidelines.

Capital Replacements: Animal Handling Equipment: This equipment is safety and care related. These items are purchased annually to replace worn and broken equipment used by Animal Control Officers in the field and by Animal Care Specialists in the building.

Kennel Grate Replacements: This building is 11 years old now and the kennel grates that support the dogs, allowing them the opportunity to get up off the floor, are beginning to rust out due to daily wear. We have spread this project out over three years, replacing the most worn first.

3 Raccoon Rabies: The Animal Care & Control Department continues to monitor the movement of raccoon rabies from the east. The epidemic has reached the Cleveland area of Ohio but it is currently contained to a three county area. There is a multi-million dollar oral vaccine baiting program now being conducted by Ohio, West Virginia, Kentucky, and Tennessee. We are not currently threatened by the arrival of raccoon rabies but it is difficult to estimate it's movement as there are so many variables, including the baiting program. The potential financial impact on the city has not been addressed in this CIP or proposed operating budgets as original time-frame estimates of the arrival of the disease have come and gone. Rabies has proven to be an extremely expensive disease to combat from both the animal and human health perspectives.
