***CURB SIDE RECYCLING.*** Bi-weekly pick-up of discarded material as specified by the city including but not limited to newspapers, aluminum, glass, steel and plastic containers which can be separated from municipal solid waste for the purpose of recycling, but not including material generated from and commonly reused within an original manufacturing process.

These administrative procedures shall be conducted consistent with IC 4-21.5-3, et seq. No dispute or appeal of said fee shall be a valid reason for non-payment until or unless said charge is deleted from the user's utility account by the city. In such case, any overpayment made hereunder shall be applied as a credit to said user's utility account to satisfy charges for water and sewer usage and/or storm water service.

(G) (1) The Board of Public Works shall have the responsibility and authority to adopt rules and regulations governing the implementation of this residential municipal waste collection and disposal program which shall include the authority to appoint an agent for the collection of the charges due hereunder, and may provide for late payment charges, attorney fees and court costs which may be added to other charges due should a delinquency occur on the utility account.

(2) The Board of Public Works shall have the authority to hire and/or contract for such collection and disposal services as provided by IC 36-9-30-8.

(H) The fee and residential municipal waste collection and disposal program established hereunder shall be reviewed at least annually. Said rate system shall be adjusted as necessary to provide sufficient funds to pay any and all contract fees for collection, hauling and/or disposal of such residential municipal waste and all costs incidental to the program, but shall also strive to equitably assess charges in a manner conducive to voluntary recycling.

## **City of Fort Wayne**

### ADMINISTRATIVE POLICY

for

Enforcing Chapter 50: Garbage and Refuse

October 1, 1996

The purpose of Chapter 50: Garbage and Refuse is to control the disposal of waste to limit unsightly storage that blights neighborhoods and to prevent sources of habitation and food for vectors, rodents, and other vermin that present a hazard to the public health. To this end, enforcing departments shall attempt to gain voluntary compliance with the requirements of Chapter 50: Garbage and Refuse, and will issue tickets when necessary to attain compliance. The authority for enforcing §§50.04 through

50.19 is with the Fort Wayne Police Department, the Department of Neighborhood Code Enforcement, the Energy and Environmental Services Department, and the Allen County Department of Public Health.

### ***Order of Primary Responsibility for Compliance***

#### Property Owner

The property owner shall be responsible for providing sufficient refuse storage containers for the disposal of refuse (§50.04). If refuse storage containers are absent, inadequate, or not rodent- proof, enforcing authorities shall cite the property owner with a violation.

#### Property Occupant

The occupant of the property shall bear the primary responsibility for all other aspects of compliance with Chapter 50: Garbage and Refuse. Enforcing authorities shall first cite the occupant (when property can reasonably be assumed to be occupied) for violations other than the provision of proper refuse storage containers.

#### Rental Property Move-Out Conditions

In recognition that tenants sometimes move out of properties without giving due and proper notice to property owners, special attention shall be given to such situations when issuing citations. Any violations of Chapter 50: Garbage and Refuse, except with regard to the provision of refuse storage containers, shall first cite the occupant as the party with primary responsibility. If the property

appears to be vacant with a recent tenant move-out, the property owner shall be given seven days, from when the city is notified of the problem, to comply with any and all violations.

After the property is vacant for seven days, the property owner will be deemed to be the party with primary responsibility for compliance with Chapter 50: Garbage and Refuse and enforcing authorities shall cite the property owner with appropriate violations.

(Ord. G-38-07, passed 12-18-07)
